

Kehilla COVID Public Health Protocols

Updated as of February 9, 2022

Everyone attending any program, event, service or meeting held at Kehilla (indoor or outdoor) who is eligible for vaccination is required to be fully vaccinated and will be asked to show evidence upon entry. Full vaccination now includes booster shots for those eligible, in accordance with the [recommendations of the California Department of Public Health](#).

Those who are not yet eligible for vaccination or who have a medical condition that prevents them from being vaccinated will get a rapid COVID test and will be admitted if it is negative.

N95, KN95 or KF94 masks will be required for all participants (indoor and outdoor), except leaders who may be unmasked while leading and will take a rapid antigen test beforehand. Adult size N95/KN95/KF94 masks will be provided for those who don't have them. We are currently making an exception for children up to age twelve who may wear any well fitting masks both indoors and outdoors (see California Department of Public Health's mask [recommendations](#)).

This policy will apply to all Kehilla activities that take place at the Kehilla building, including rentals.

Anyone experiencing ANY symptoms of potentially contagious illness should remain at home and access Kehilla events virtually, regardless of vaccination status or even if you have received a negative COVID test result.

Food or beverages are only allowed outdoors, with the exception of ritual items.

Specific Kehilla programs or activities, including Kehilla School, may issue additional guidelines that are more strict than these.

This policy is subject to change in the future.
